

Aditya Garimella, Software Development Engineer

Hamamatsu , Japan (Open to relocation to Tokyo) , 080-8332-6549, g.aditya2307@gmail.com

PROFILE

Software Engineer with hands-on experience building and maintaining a customer-facing Electron desktop application using React, TypeScript, and Fluent UI. Executed a full bundler migration from Webpack to Vite across a monorepo. Strong foundation in computer science with a B.Tech in CSE (9.28 GPA). AWS Certified Cloud Practitioner and DataCamp AI Engineer for Developers Associate, actively expanding into AI and Python development. Engineer/Specialist in Humanities visa holder. JLPT N2. Seeking a full-stack SDE role in a high-impact, globally distributed team.

EMPLOYMENT HISTORY

Apr 2025 — Present	Software Engineer, Elysium Co., Ltd. (via Human Resocia Co., Ltd.) Hamamatsu Elysium is a 3D data interoperability software company for the manufacturing industry (~100–300 employees). Working in an 11-person development team as one of 3 TypeScript-focused engineers, collaborating in both Japanese and English - Developed and maintained UI features for a customer-facing web and desktop application using React, TypeScript, and Fluent UI — fixed 100+ bugs and implemented 50+ features - Advised and led the bundler migration from Webpack to Vite for both the Electron app and a companion website within a monorepo, achieving a 0.7MB bundle size reduction - Created Storybook documentation for 50+ UI components, improving design consistency and developer onboarding - Wrote Jest unit test files for 10+ components, ensuring code reliability across the application - Managed package versions and dependencies across the monorepo, ensuring consistency and compatibility - Leveraged AI-assisted development tools (GitHub Copilot, Claude) to accelerate feature delivery and debugging workflows - Contributed 1,000+ GitHub contributions ; completed 10+ code reviews, participating in daily standups and technical discussions
Feb 2025 — Apr 2025	Trainee Engineer , Human Resocia Co., Ltd Tokyo Completed intensive Japanese language training and Japanese business manners program prior to engineering dispatch.

EDUCATION

Jul 2020 — Aug 2024	B.Tech, Computer Science and Engineering, VIT University, Vellore (India) Vellore , India GPA: 9.28 / 10.0
---------------------	--

SKILLS

TypeScript	React	Python
AWS	Git	AI tools

OTHERS

Technical
- Languages: TypeScript, JavaScript, Python, Go - Frameworks & Libraries: React, Fluent UI, Next.js - AI: LLM application development with Python, prompt engineering, AI-assisted coding - Tools & Platforms: Electron, Vite, Webpack, Jest, Git, GitHub, Protocol Buffers (gRPC) - Cloud & Databases: AWS (EC2, S3, Lambda), PostgreSQL - Other: Monorepo management, package versioning, REST APIs, SDLC , DSA , OOPS
Certifications & Languages:
- AWS Certified Cloud Practitioner (2023) - JLPT N2 — Japanese Language Proficiency Test (2025) - DataCamp AI Engineer for Developers Associate (2026) - English: Native level Japanese: Business level (JLPT N2)
